BETTER STREETS SQUAD

Ali and Jo want their street to be nicer so they can get outside and have more fun and exercise in a clean, safe place.

1. Show them what could help them by circling the things that can make their street safer and a better place to be.

2. Their grandma wants to go out for a walk but she can't walk far and needs to keep stopping for a rest. Draw a square around the thing that will make her journey more comfortable.

Free to download at: www.brightkidz.co.uk

Now look at your own street. What would make it safer, nicer and easier to walk or cycle? What can you do about this? Ask your family for their ideas too.
